Refurbishment of the Manse

A new washing machine and fridge freezer is to be installed at the manse that is being prepared for Ahenkora's arrival. The ones that are currently there are fully working and have been PAT tested, and are on offer to anyone who might have need of them. Please contact Elaine for further details.

If anyone would like to visit the new manse and see the progress that is being made, plans, etc., the property manager would be happy to meet us there to show us around. Again, please contact Elaine so that arrangements can be made.
